TAKE BACK CONTROL

and regain your
adventurous spirit

Motorstep effortlessly lifts you into
your vehicle, caravan or mobile home

Motorstep helps you to enjoy freedom and independence. It allows you to safely move up into your mobile home or leisure vehicle including caravans, motorhomes, RVs and trailers.

- ▶ Designed for people with disabilities
- ▶ No costly installation or building work needed
- ▶ Free standing - place next to the existing step, no bulky ramps needed!
- ▶ Weather proof
- ▶ Discretely folds up for storage: set up in seconds
- ▶ Motorstep travels anywhere you go - choose a battery powered option or easily connect to a power outlet or leisure battery
- ▶ Easy touch control button & strong support frame to make lifting easy and safe

MOTORSTEP

A simple, effective way to **overcome steps in a controlled and easy way.**

Eliminating the need for bulky ramps or heavy equipment, **Motorstep is a cost effective way to enjoy holidays and travel again.**

**Enjoy life,
live adventurously again!**

HOW TO USE YOUR MOTORSTEP

We used our very easy-to set up Motorstep on our recent holiday. It was an absolute boon and proved itself to be worth every penny. My wife has severe mobility issues and we thought we would have to give up our caravan as she was unable to use the steps. Now there is no problem. Worth every penny. Thank you for the return of our holidays.

FROM GLENN & BETH
VERY HAPPY CUSTOMERS

STEP 1

Once your Motorstep is in place, simply step onto the platform that is just 1.5 inches/38mm off the ground.

STEP 2

Hold onto the two handles and press the green button.

STEP 3

The Motorstep platform will gently rise in tandem with the central moving column you are holding, providing fantastic reassuring support.

STEP 4

Once you reach your required height, release the green button and the Motorstep will gently stop.

STEP 5

Simply step off the platform into the vehicle or onto your decking.

STEP 6

Leave your Motorstep in position ready for your return.

SEE MOTORSTEP IN ACTION ON OUR WEBSITE OR YOUTUBE CHANNEL.
JUST SEARCH 'MOTORSTEP'!

WHICH MOTORSTEP IS PERFECT FOR YOU?

Motorstep is available in a range of models with differing lift heights depending on the intended use plus 3 power options. Take a look at our handy table to help you choose the best option to meet your needs.

MS600 MS600 FREEDOM

The leading motorised step for caravans and motorhomes

Love your independence!
Motorstep lifts you effortlessly up into your caravan or motorhome.
Regain the freedom to travel wherever you choose.

Designed specially for those with disabilities

New for 2023 - Even greater freedom!

Our new Freedom model is battery powered giving you full portability without being tied to a power source - no cables or need for a power supply!

- Powered by a heavy duty 24 volt Lithium Ion Battery that can be used ~150 times before charging
- Supplied with a 24v 10 amp battery and charger specific to your country of residence.

What's more Freedom will lift up to 160kg - 350 lbs - 25 stone!

MS600 is supplied with a 6m connection cable to power the Motorstep from your leisure battery.

A permanent installation is needed to install a socket on the door sill by a caravan service agent or by someone with competent DIY skills.

**Don't want to install the socket?
Try the Li-ion battery!**

Platform Size	350x450mm
Powered by	230 volt / 12 volt power supply from any standard 13 amp power outlet. Lithium ion battery powered option also available

We thought our RV Days were over due to my arthritis, but now we can join the Grey Nomads once more and travel around Australia without worrying about getting in and out. It's such a GREAT Idea. Thanks so much.

DONALD AND MARY BOOTH, WESTERN AUSTRALIA

My Husband has been struggling for years with the steps into our static holiday home and it got to the point where he no longer wanted to go out. It was so expensive to have a ramp fitted. Motorstep demonstrated their product and gave us advice. My husband finds it so easy to use. I would recommend a Motorstep to anyone who has a problem with the step into the home.

MRS GILROY, CHICHESTER

POWER AND OPTIONAL EXTRAS

GOOD TO KNOW

- ▶ Motorstep lifts can be purchased **VAT free in the UK** by registered disabled customers or customers with chronic illnesses
- ▶ Motorstep is **fitted with wheels** to help you easily roll it into place
- ▶ The **security eye bolt** prevents theft and the removable master key stops unwanted use
- ▶ Motorstep is fully **weatherproof** and can be left outside in any weather
- ▶ Fitted **safety edges** automatically stop descent if an object is detected under the platform

POWER

Motorstep MS600H and MS800H are both supplied with a 230v (UK and Europe) or 110v (North America) power supply fitted with country specific plug. Simply plug your Motorstep into any standard power outlet.

A 12v extension cable up to 8 metres long can be supplied if your Motorstep will be positioned away from a convenient socket.

Don't want to use a power supply? Try the Li-ion battery!
Contact us for more information.

ACCESSORIES

Easy Lift Wheels

Both the MS600 and MS800 can be fitted with wheels to provide an alternative method of lifting for storage.

Support Strap

Both the MS600 and MS800 Motorstep step lifts can be fitted with a support strap that easily attaches to the central moving column. It is designed to support the user as they are being lifted.

Wander Lead/Remote

Both the MS600 and the MS800 Motorstep can be fitted with external control buttons that allows the Motorstep to be operated by a second person if the main user requires a little extra assistance.

Bespoke Cover

Even though the Motorstep is weather proof and designed to be used outside we can supply a bespoke cover. An eyelet allows the use of a security chain. Also suitable for Freedom models.

ABOUT MOTORSTEP

ENJOY
INDEPENDENCE
AND FREEDOM
AT HOME
TOO!

Visit our website for more details about our HOME range of products and accessories.

Proudly designed
and made in
Great Britain

MOTORSTEP is a family business based in Buckinghamshire, England.

We established Motorstep in 2013 after personal experience meant we saw firsthand just some of the restrictions faced by those with disabilities. We realised that a mobile, motorised, step-on lift would return independence and encourage an active lifestyle. Motorstep was born!

Today, there are multiple Motorsteps that suit different situations and needs. Each one is designed to help negotiate a step with ease and confidence.

Customer satisfaction is our highest priority in order for us to establish ourselves as a leader in the mobility aid market for many years to come. We work with all our customers to assess their mobility and individual needs to ensure Motorstep is right for them before a purchase is made.

We ship to customers in Great Britain and Europe direct from our UK factory. We also have a distribution network worldwide across USA, New Zealand, and Australia, visit www.motorstep.net for details.

HOW TO CONTACT AND ORDER FROM MOTORSTEP

If you have any questions please do not hesitate to contact us. Our dedicated family team is always here to help.

Want to try before you buy?

We have a demonstration area at our Buckinghamshire factory. Visit us and try out the Motorstep for yourself. In some cases, we can offer a demonstration in your own home - contact us for details.

We can take orders over the phone and delivery is normally within 7-10 working days.
